

BISHOP COTTON WOMEN'S CHRISTIAN COLLEGE

Suggestions from the Governing Council members in regard to the feedback obtained from the various stakeholders for the year 2020-21

Students' Feedback

1. The expectations of students in new & innovative teaching and on line short time courses / internship have to be addressed to keep up with the advance in learning or on line curriculum & non curricular activities
2. Employment opportunity enhancing add on courses would definitely groom them one and above the average.
3. Special sessions for those interested (as indicated in the feed back) with out-going students to inform of the institutions, higher education options or job placements can be organised, as counselling, motivating, facilitating exercise.
The information available is vast on internet, but physical interaction would encourage in better understanding
4. Curriculum being out of institutional control, the student demands on interactions with staff, skills on sharpening their thinking & expressions of their interests, analysing ability, discernment, would equip them to face outside the institution environment especially in jobs, higher education with confidence.
5. Since some feed backs on curricular content, seeking field exposure, commercial application / industry is desired, they could be the institution or staff motivated exercises even if not indicated in the syllabus.
